Dear Ms. Tobin,

This letter is in response to your 11-30-83 request for a release to the Rasmuson Library for use of the Norton Symposium tapes. I have consulted with Dr. John Lodbell, President of the Alaska Anthropological Association, and he has requested that I acknowledge the unrestricted release of those tapes to you on behalf of the Association.

There is a transcription (unpublished manuscript) that accompanied the tapes when I forwarded them to you. If that is not currently with the tapes, I will be glad to furnish you another copy upon request. Additionally, the proceedings of the Symposium have been published as vol 19, #2 of ARCTIC ANTHROPOLOGY, 1982. Though not included in vol. 19-2, the tape materials are an interesting supplement to that volume. The transcription is referenced in that publication.
