Dr. William Schneider
 Oral History Project
 Rasmuson Library
 University of Alaska
 Fairbanks, AK. 99701

Dear Dr. Schneider,

I am loaning you a set of tapes recorded by me during the Utqiagvik Archaeology Project in Barrow in 1981. These taped interviews were collected as part of the ethnohistory documentation of old Barrow during that project. They are mostly of elders talking about their memories of life in Barrow during the early part of this century and with accounts of an even older way of life passed on to them by their parents and elders. You have my permission to duplicate these tapes and make them available through the library for scholarly purposes.

Sincerely,

David Libbey, Oral History Coordinator
 Commission on Inupiat History, Language
 and Culture
