University of Alaska Museum
SUBJECT: Lecture tape by Dorothy Jean Ray

The lecture tape by Dorothy Jean Ray has not been tracked down yet. This is not to say that the tape is lost, simply temporarily misplaced. As soon as I find it I will send it to you for copying.

I came across other Geist and Lecture tapes I think you should add to your collection, and they are enclosed.

The University of Alaska is happy to share these lecture tapes with you in hopes they can be made available to a large audience. In return, if one copy of these tapes could be made available to the Museum's Education program, it would be appreciated.

I will also be sending you nine video tapes of the Aleut Lecture Series recently sponsored by the Museum for you to copy and make available for library use.

Thanks for the service!
