This letter is to verify that recordings with Nick Charles were done for the Alaska State Council on the Arts project, "The Artist Behind the Work." Ann Riordan was the interviewer. She did this work under contract to the Elmer E. Rasmuson Library, University of Alaska Fairbanks with the purpose of creating an archival collection for use by scholars and the interested public. Therefore, I, as project director, have initiated this letter as a form of release to the Archives so the material can be used.
