UNANGAN AWAKENING BOOK/CASSETTE SET

The following books were recorded in Eastern Aleut by Father Paul Mercurief and assisted by Elizabeth Mercurief under the ILC-94-040-113 Grant. The St. George set is available for interlibrary loan from St. George Library.

The books which appear on this list were created by Bilingual grants/School Funds in the Aleutian Pribilof Region. We recognise the books valuable contribution in their written forms and hope that making audible cassette tapes to accompany them, enhances the books stories and teachings. The original authors, illustrators and organizations which created this books have given Aleut Language tools for survival.
