Re: Hetty Ruth Coleman Lindburg  
Oral Interview/Archives Alive-Valdez

Sirs:

You have asked for permission to use the history given to the Archives Alive in an oral interview. What you have sent appears to me to be an exclusive right to this interview. We, as co-personal representatives, see no reason to make this an exclusive right - there are others in our own community who would also wish to use this information in compiling history in our locale.

If you do wish to use this information as part of a historical compilation we certainly feel it is within reason for us to give you permission to do so.

If you have a problem in not receiving the signed statement, attached, let us know by return mail. If there is not a problem, we would like a statement from you acknowledging the fact that you will be using this information, although not exclusively.

Thank you,

*Betty Conley Bill Conley*
